

Autodesk 3ds Max Design 2012 for Design Visualization

Course Details

Course Duration: 3 days
Award: 3ds Max Design 2012 for Design Visualization
Course Fee: €795 per person

Courseware Description

This course provides a fundamental understanding of utilizing 3ds Max Design for Design Visualization. Although the courseware is designed for instructor-led courses, you can also use it for self-paced learning. The courseware encourages self-learning through the use of the Autodesk® 3ds Max™ 2012 Help system.

Hands-on exercises throughout the course demonstrate the modeling process using techniques that can be applied to the mainstream drafting industries.

Objectives

The seven primary objectives of this course are to teach students how to:

- Understand the basic functionality, features and principles behind 3ds Max Design.
- Create and manipulate 3D data in 3ds Max.
- Embellish scenes with the use of materials and maps.
- Create adequate lighting for your environments.
- Import data from other 3D applications.
- Render still pictures and animations to disk for later viewing.
- Animate objects in the scene

Who Should Attend

This course is designed for beginner users who want to learn about 3D environments and want to use 3ds Max for Design Visualization purposes.

Prerequisites

It is recommended that you have a working knowledge of a graphics or CAD application such as Autodesk AutoCAD or Autodesk Revit.

Course Outline

- User Interface
- File I/O
- Materials
- Modifying Objects
- Lights
- Using Maps
- Transforming Objects
- Getting Started with 3D Geometry
- Animation Basics
- Rendering
- Modeling
- Cameras
- Modeling from Splines

Why choose Amicus Technology Training?

- Quality certification - We are an authorized Autodesk and City & Guilds training and exam centre
- Personal Attention ensured - Maximum 6 candidates per class
- Follow-on telephone support included in all courses
- We provide a range of courses to facilitate the candidate moving from an introductory level to advanced AutoCAD or specialist areas e.g. Architecture, Civil Engineering.
- We are constantly updating our courses to ensure you are up to date with the latest software
- The West of Ireland's only Architecture, Civil Engineering & City & Guilds authorized Autodesk reseller
