

Autotrack Road Pro V10 Essentials

Course Details

Course Duration: 1 day

Cost : €295.00 per person

Award: Amicus Training Certificate in Autotrack Road Pro Essentials

Course Description

AutoTrack is one of the most powerful vehicle swept path analysis programs on the market. This one day course will provide you with the skills to undertake both simple and complex analyses.

Objectives

The primary objective of the course is to familiarize students with the concepts and application of the essential functions of Autotrack Road Pro as they apply to road design. After completing this course, students should be able to

- Create, edit, analyze, view and report on swept path analyses
- create and edit vehicles
- Create animations
- import & export data
- Use the AutoCAD Civil 3D 2012 Autotrack tools

Who Should Attend

Civil Engineers, technicians or draughting personnel working with AutoCAD or Civil 3D, and involved in road design projects.

Prerequisite: Students should have a working knowledge of AutoCAD 2006 or later and be familiar with Road Design principles.

Course Content:

- Introduction to AutoTrack & basic vehicle movement theory
- User Interface, Settings & Properties
- Driving modes
- Adjust driving paths dynamically
- Creating reports
- Create and edit basic vehicles
- Creating basic animations
- Importing and exporting data
- Use of AutoCAD Civil 3D AutoTrack tools
- Use of the Vertical Clearance mode to check headroom and ground clearance
- Overview of parking layout tools

Why choose Amicus Technology Training?

- Quality certification - We are an authorized Autodesk, Bentley & City & Guilds training and exam centre
- Personal Attention ensured - Maximum 8 candidates per class
- Follow-on telephone support included in all courses
- We provide a range of courses to facilitate the candidate moving from an introductory level to advanced AutoCAD or specialist areas e.g. Architecture, Civil Engineering.
- We are constantly updating our courses to enable the candidate to avail of the latest software
