

AutoCAD MAP 3D 2010 Essentials

Course Details

Course Duration: 3 days
Cost : €795.00 per person
Award: Autodesk Official Certificate in Autocad MAP 3D R2010 Essentials

Course Description

The course is a practical hands-on introduction to Autocad MAP which is both an efficient and effective application for creating and maintaining mapping data and a powerful and accessible GIS environment. As a mapping version of AutoCAD it is widely used and available in local authorities, engineering consultants and government bodies.

Objectives

The primary objective of the course is to familiarise students with the concepts and applications of the main functions of AutoCAD MAP 3D 2010.

Who Should Attend

Technicians, engineers, surveyors, GIS personnel, archaeologists, geologists, environmental scientists and anyone working with mapping or GIS.

Prerequisite:

Candidates for this course should be map and computer (Windows Vista/XP/2000) literate with a sound knowledge of AutoCAD (R2006 or later) 2D draughting. Knowledge of MS Access database would be an advantage.

Course Content:

- Geometry creation & editing
- Linking & Managing Data
- Creating Annotation
- Data import & export
- Feature Classes
- Raster Images
- Multiple source drawings
- Coordinate systems
- Queries
- Using Display Manager
- Working with Feature Sources
- Creating & using topologies
- Plotting Maps

Why choose Amicus Technology Training?

- Quality certification - We are an authorized Autodesk, Bentley & City & Guilds training and exam centre
- Personal Attention ensured - Maximum 8 candidates per class
- Follow-on telephone support included in all courses
- We provide a range of courses to facilitate the candidate moving from an introductory level to advanced AutoCAD or specialist areas e.g. Architecture, Civil Engineering.
- We are constantly updating our courses to enable the candidate to avail of the latest software
- The West of Ireland's only Architecture, Civil Engineering & GIS authorized Autodesk reseller
